1982 Article Index

Systems Management Principles

The fifth freedom: freedom from supervision (Jan.)
Dr. David S. Brown

Software and taxation: Beware (Feb.)
Dr. Mike Vanecek and Dr. Debra White

Misunderstanding of "Objectives" (Mar.)
Jack Caldwell

Quality management (May)
William B. Jenkins

How many tails has that tiger got? (June)
George Glaser

Impact of computers on company productivity (July)
Dr. Eleanor W. Jordan

Survival and prosperity in the '80's (Nov.)
Dr. Frank Greenwood and Mary Greenwood

Productivity improvement strategies: Technological transfer and upgrading (Nov.)
Richard J. Tersine and R. Leon Price

Managing the Systems Effort

Portfolio approach to information systems (Jan.)
Warren McFarlan

EDP auditors' tales of horror (Jan.)
Alan E. Brill

Information systems analysis (Jan.)
John Nemec

Solutions to productivity problems (Jan.)
Dr. Lloyd L. Byars

Project manager: technician or administrator (Jan.)
Paul Potts

Systems analyst performance: Criteria and priorities (Feb.)
Laura L. Scharer

Project management: Getting started (Feb.)
Paul Potts

A management-oriented approach to systems development (Feb.)
Dr. Herbert Koudry

Managing program maintenance (Feb.)
William C. Ramsgard

Improving field service productivity (Mar.)
Donald F. Blumberg and Dennis Gershowitz

Legal review of the information system (Mar.)
Dr. Joseph M. McKeon, Jr.

Measuring program maintainability (Mar.)
William W. Agresti

Total information security (Apr.)
Arnold M. Cohn

Privacy in the office (June)
—

The problem analyst (June)
Stephen A. Dimino

Can internal accounting control be audited (June)
Arthur E. Carlson

You can wait to automate (June)
W.J. Boczany

Is there an "office of the future" in your future? (July)
Jean S. Doremus and Michael G. Morgan

Computerized information control (July)
John Nemec

User acceptance testing facility (Aug.)
Ralph Harrison

Control of product planning and development programs (Aug.)
Robert I. Stevens

Controlling the information system function (Sept.)
Niv Ahituv and Seev Neumann

Systems/user lessons from the Japanese (Sept.)
Dr. John M. Nichols

Limitations of structured analysis (Sept.)
Gerald R. DeMaagd

Userfunctional procedures (Sept.)
Vaughn E. James

Tradeoff analysis in a project environment — Part 1 (Oct., Nov.)
Dr. Harold Kerzner

Warnier-Orr diagrams in applying structured concepts (Oct.)
P. Brian Isaacs

System design in a data base environment (Nov.)
William E. Hammer, Jr.

Auditing on-line, real-time computer systems (Dec.)
Charles L. Holley and Frederick Millar

Assessing the risk for system failure (Dec.)
Dorine C. Andrews

Faster/cheaper computer systems with work standards (Dec.)
Edgar S. Neely, Jr.

Return to basics (Dec.)
Stephen A. Dimino

Determining information requirements of a decision support system (Dec.)
Merle P. Martin

Selection and Training of Systems Personnel

Management of systems analysts (Mar.)
Stephen A. Dimino

Why is effective employee evaluation critical? (Apr.)
Sylvia Hoehns Wright

Are computer science degrees necessary in business DP? (Apr.)
Dr. Claude L. Simpson, Jr. and Dr. Charles O. Bettinger

The problem analyst (June)
Stephen A. Dimino

Dr. Claude L. Simpson, Jr. and Dr. Charles O. Bettinger

The problem analyst (June)
Stephen A. Dimino

Information Collection, Storage, Retrieval

Is computer crime important? (May)
Mark G. Simkin

Management reports (June)
Merle P. Martin

Keeping a vital system up and running (July)
—

Strategic communications management (Oct., Nov.)
James E. Mathias

Computerized information control (July)
John Numec

DP Hardware and Software Applications

Key differences determine successful WP and DP (Jan.)
Jack L. Balderston and Janine E. Smith

Software and taxation: Beware (Feb.)
Dr. Mike Vanecek and Dr. Debra White

Security at sign-on time (Feb.)
William W. Agresti

Designing for terminals: work process (Mar.)
William C. Ramsgard

Decision support system for ski area design (Mar.)
David C. Farwell and Ted Farwell

Improving field service productivity (Mar.)
Donald F. Blumberg and Dennis Gershowitz

Migration within the screen system (Apr.)
William C. Ramsgard

A personal computer in your future? (Apr.)
William C. Andrews

Total information security (Apr.)
Arnold M. Cohn

Management advantages of computerized MRP systems (May)
Raj K. Singh

Canoe scheduling by computer (May)
William C. Andrews

Trends in data base management systems (May)
Dr. Robert B. Fireworker and Jeffrey D. Konzet

Is computer crime important? (May)
Mark G. Simkin

Designing for terminals: Entry verification (May)
William C. Ramsgard

Computer-based financial modeling (May)
Dr. Richard Klein

Model for mini computer selection (June)
Parviz ghandforoush

Choosing computer services for small businesses (July)
Mo A. Mahmood

Impact of computers on company productivity (July)
Dr. Eleanor W. Jordan

DP software contracts (Aug.)
Frank Danaher

Corporate brainchild — microcomputers Part 1 (Aug.)
Steven F. Hesprich

Graphics design for management (Aug.)
Peter M. Lay and George F. Ellis

Corporate brainchild — microcomputers Part 2 (Sept.)
Steven F. Hesprich

Design of data entry screens (Sept.)
Dr. Yannis Methodios

Internal control problems in computer systems (Dec.)
Paul Hooper and John Page

Computer Graphics (Dec.)
Dr. James C. Wetherbe and Donald P. Rademacher

Auditing on-line, real-time computer systems (Dec.)
Charles L. Holley and Frederick Millar

Faster/cheaper computer systems with work standards (Dec.)
Edgar S. Neely, Jr.

Management Sciences

Who's using MBO in management? (Feb.)
Dr. Stephen R. Ruth and Dr. William W. Brooks

Are computer science degrees necessary in business DP? (Apr.)
Dr. Claude L. Simpson, Jr. and Dr. Charles O. Bettinger

Computer-based financial modeling (May)
Dr. Richard Klein

Information not answers for "squishy" problems (Oct.)
Dr. Peter M. Ginter and Dr. Andrews C. Rucks

Management Information Systems

Portfolio approach to information systems (Jan)
Warren McFarlan

Strategic MIS: promises unfulfilled (Mar.)
Dr. Andrew C. Rucks and Peter M. Ginter

Legal review of the information system (Mar.)
Dr. Joseph M. McKeon, Jr.

Information systems in social services (Apr.)
Stephen McMenamin and Dr. Steven R. Dzubow

Telecommunications — capital investment planning (May)
Andres Llana, Jr.

Changing face of MIS (June)
Don Marino

Urban property information system (July)
Edgar H. Hemmer and Barbara Denison

Keeping a vital system up and running (July)
—

Electronic mail — applications for management (Aug.)
Bernard Husbands

Cost/benefit analysis of MIS (Sept.)
Dr. Robert T. Keim and Dr. Ralph Janaro

Strategic communications management (Oct., Nov.)
James E. Mathias

Determining information requirements for decision support systems (Dec.)
Merle P. Martin

Graphic Presentations & Reports

Prepare for the future with updating systems (Feb.)
Elizabeth Berry

Management reports (June)
Merle P. Martin

Electronic mail — applications for management (Aug.)
Bernard Husbands

Graphics design for management (Aug.)
Peter M. Lay and George F. Ellis

Userfunctional procedures (Sept.)
Vaughn E. James

Computer graphics (Dec.)
Dr. James C. Wetherbe and Donald P. Rademacher

Case Histories

Decision support system for ski area design (Mar.)
David C. Farwell and Ted Farwell

Use and misuse of consulting services (Apr.)
Thomas R. Marshall

Systems approach to winning baseball (Apr.)
Dr. Thomas H. Athey

Information systems in social services (Apr.)
Stephen McMenamin and Dr. Steven R. Dzubow

Court management information system (June, July, Sept.)
Paul Potts

Urban property information system (July)
Edgar H. Hemmer and Barbara Denison
Paul Potts

On-loan systems analysts aid NYC transit authority (Oct.)
Robert I. Stevens

Productivity improvement strategies: Technological transfer and upgrading (Nov.)
Richard J. Tersine and R. Leon Price
